

Recycling Initiative: Getting Started!

Here are some ideas:

- Get more recycling bins and jazz them up by painting them with funky colours and designs!
- Find out from your local municipality what can be recycled in your area and make informative posters!
- As a promotional event, run a Pop Can Shoot Out event. Students can be given empty pop cans to compete in throwing them into recycling bins.
- Start a battery and cartridge recycling program

Need help to start a project? Check it out:
